CODE: 1096

FABRICS:

Dress: 100% Polyester satin

DESCRIPTION:

This is a fabulously classic and elegant wedding satin wedding gown with a flattering empire line and flared hem. This is complimented with a lace trim on the train. This is designed to make the wearer look taller and slimmer.

The dress was made to flatter the wearer with the use of boning and good design, so it did not fit tightly, yet suggested a lovely hour-glass figure. The bridesmaids complemented the bride with classic A-line dresses in the same fabric and of the same shades as the flowers in the bride's bouquet, telling a lovely story of colour, fun and individuality.
