DESCRIPTION:

This fantastic, vibrant Mother of the Bride suit is designed to catch the eye.

The front is closed by a singular hook and eye and is left open, enabling the colourful singlet to be shown.

The lines of the jacket flatter the wearer, showing off her hour-glass figure. The shaped hem creates interest at both the front and back of the jacket. The three quarter sleeve is hemmed with an organza trim.

The fitted skirt has a dramatic, flared hem. This is also trimmed with organza.

The roused contrast on the jacket and skirt break up the all-over colour and create depth.
